

Expanding Access to Effective Care for Early Births

Providing the appropriate services to care for these most fragile infants in unexpected moments leads to the highest quality of care and improved outcomes. The financial and emotional toll for the patient, parents and the hospital is significant.

INFANTS WILL REQUIRE EXTENSIVE
RESUSCITATIVE MEASURES

Envision Physician Services' NeoNow Is the Answer

NeoNow combines your on-site physician partner with the expertise of our board-certified neonatologist via a two-way video interaction. By virtually being present during an encounter, our neonatologists can make critical decisions that will directly impact and improve patient outcomes, from emergent neonatal resuscitation support to a consultative resource for community and hospital providers.

PROGRAM FEATURES

- Neonatologists trained in using virtual health technology
- A national network of neonatologists available 24 hours a day, 7 days a week
- 24/7 neonatologist coverage at a fraction of the cost of an in-house physician
- Ability to support level 1 nurseries or supplement level 2 nurseries with in-house APP's
- Continuous data analysis and key performance indices tracking

BENEFITS TO THE PATIENT, FAMILIES, AND OUR HOSPITAL PARTNERS

- Immediate support for neonatal emergencies
- Improved clinical outcomes, patient satisfaction, and decreased need for transport
- Improved bed utilization and discharge timeliness
- Support for community pediatricians and family medicine physicians
- Virtual educational program for hospital staff

Why Envision?

We have more than 40 years of experience implementing the tools, resources and technologies NICUs need to deliver high-quality patient care. We help hospital leaders and clinicians solve their toughest challenges and deliver high-quality care through our full suite of clinical and operational solutions.

And unlike narrowly focused healthcare organizations, Envision Physician Services is ingrained in the delivery of patient-centered care. We know — through experience, data and best practices — how to achieve the best outcomes and enhance the delivery of healthcare in the future.

Get Started Today

If you are ready to start utilizing NeoNow at your facility, [submit a request](#). Once your request is approved, the Envision Virtual Health deployment team will be in contact with your site to begin preparations. If you are interested in NeoNow, but aren't quite ready to submit a request, you can direct questions to VirtualHealth@EnvisionHealth.com.
